CITY OF WASHINGTON, THURSDAY MORNING JUNE 21, 1855

PROSPECTUS

BE it known that I, the subscriber obtained letters patent in December, 1851, for an apparatus for the destructive distillation of wood, and the making therefrom of tar or pitch at "WASHINGTON SENTINEL." PROPOSE to publish in the city of Washington, in September, a political newspaper, under the name of the WASHINGTON SENTINEL. pleasure, and gas; and that in the judgment of competent persons the invention of an appar-tus recently patented by W. And, further, that what is patented by said Porter rightfully belongs to me, as I expect to prove ere long before the United States Patent Office; and, further, that the use of ciples of the Democratic party of the United States it does not propose to be the organ of any Depart ment of the Government, except in so far as an in dependent maintenance of the doctrines of that said Porter's invention involves also a process which I am now claiming before the United States Patent Office, and which has been adjudged to be

It will not be ambitious to commend itself to the tion of all such as may conflict with them, from whatever quarter they may come. It will seek to be (and it will endeavor to deserve the title) the organ of the Democratic party of the United States.

In the National Intelligencer of the 25th instant Mr. Porter announces that he has secured by patent the "exclusive right to making gas from wood," and threatens presecution to all parties infringing his patent. I ask how this statement comports with the fact of my patent of December, 1851, and how far the threat can intimidate under such circumstances? Mr. Porter's claim is based The SENTINEL will maintain as a fundament. titution as a compact, by which, also they created as their common agent, the powers express specified in is with an explicit reservation of a thers to the States, or to their separate governents. The exercise of any powers beyond these

The statement carries absordity on its front, and is a libel on the good sense of the Patent Office If such a claim or right had been granted, it would their own creation.

The Sentiner will uphold and defend the Union orbid every coal-kiln and charcoal manufactory n the country.

The following copies of correspondence and upon the basis of the rights of the States—under the Constitution—and thus by sedulously guarding extracts from the records of the Patent Office will show the true state of the case: the latter, it will the more effectually strengthen and perpetuate the former.

With regard to the exercise of the powers of the Federal Government, the SENTINEL will take as the principles of its action, that Congress shall exercis no power which has not been delegated by the C. ustitution, according to a strict and fair inno power which has not been delegated by terpret tion of its language and spirit; and that it shall no seek to attain indirectly an object through the exer ise of constitutional power, for the direct attainme t of which it has no delegation of power. In other words, all powers exercised must be clearly gra ted, and all granted powers must be used for no urpose, except such as is clearly in-tended by th Constitution.

This is to cartify that the annexed is a true copy from the files of this office of an extract from a paper filed in the matter of the application of W. D. Porter for letters patent, in accordance with which application letters patent were issued to the said W. D. Porter on the 22d day of August, eighteen hundred and fifty-four.

but to be properly defensive, it must sometimes be apparently aggressive. Our administration should be vigilant, watchful, and energetic. The world is full of important movements, commercial and political, deeply concerning American trade and American power. It is time we had an American foreign policy. We must have it. We cannot avoid it if we would. We have larger interests, and a greater stake in the world and its destiny, than every other people. We occupy the best portion of a continent, with no neighbors but a colony, and a worn-out, anarchical despotism. We are the olny people whose own land, without colonial de-fendencies, is washed by the two great oceans of the world. Our agricultural productions are more varied and more essential to civilized life, and to human progress—our mineral and manufacturing resources more vast—our facilities and capacity for internal and foreign commerce more extended than those of any other people living under one government. A continent, to a great extent, un-explored and exhaustless in its yet hidden wealth is at our feet. European trade seeks the great East through avenues which are at our doors, or must be made through our own limits. Europe, Asia, Africa, and the isles of the sea, lying all around us, look to us as the rising power, through the agency of whose example, and ever widening and extending, though peaceful influences, the bless ings of liberty, civilization, and religion, are des timed to triumph over the harbarism and superstition of the millions of the world. And shall such a people refuse to lay hold upon their destiny, and act upon the high mission to which it is called? A mission so full of hope, though so laden with responsibility, which, if properly directed, must make our confederacy the harbinger of peace as the world, as well as the peaceful arbiter of its destiny.

VALUABLE FARM IN VIRGINIA A (1 600 Acres) for Sale. Having leased for term of years, "The Fauquier White Sulphur rings" to persons whose high reputation war rants the belief they will be kept in the best style, the undersigned now offers for sale the valuable

farm which surrounds the Springs.
It contains upwards of 450 acres of low grounds —remarkable for extraordinary crops of corn, and capable of being made the best possible meadows. As part of this land yielded 100 bushels of a single acre, in 1853, the twelfth year of successive culti vation, without manure; and in 1854, bad as was the season, produced 70 bushels—the Farm is ensily susceptible of division, and is certainly one of the test in Virginia.
